## Demand & Inventory Planning Manager

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

Develop, manage, and maintain the Master Production Schedule (MPS) based on demand forecasts, customer orders, and capacity constraints

Utilize inventory management software to analyse stock levels, identify trends to ensure correct safety stocks accuracy

Identify and implement strategies to streamline inventory processes, reduce costs, and minimize stockouts or overstock situations

Plan and execute regular inventory audits to reconcile physical stock with records, identifying discrepancies and implementing corrective actions

Provide the sales team with insights into inventory levels and potential supply constraints, enabling them to manage customer expectations effectively

Recommend adjustments to safety stocks, lead times, reorder points, and MRP parameters to optimize inventory performance

### Key Requirements:

Minimum 7 years of progressive experience in production planning, scheduling, or supply chain management

Third Level qualified (would be desirable)

Demonstrated leadership in S&OP, capacity planning, and schedule optimization

Expert knowledge of ERP & MRP Systems

Inventory Management and Procurement principles and practice

Full range of Microsoft office skills (Word, Excel, PowerPoint)

- This vacancy is suitable for Remote/Blended working
- **Sector:** transportation and storage

### Career Level

- Experienced [Non-Managerial]
