## Pipefitting - Apprenticeship

### Job Description

Job Description

First Year Apprentice Vacancy

Pipefitting Apprentice – Build Your Career with Brodeen Engineering

Location: Ireland (Mainly workshop based with the possibility of site work)

Brodeen Engineering is offering an excellent opportunity for a Pipefitting Apprentice to join a growing engineering company with a strong reputation for quality, safety and long term employment.

This role is ideal for someone who wants more than just a trade — it's an opportunity to build a long term career with real progression in the engineering sector.

### About the Role

As a Pipefitting Apprentice, you will:

- Learn the pipefitting trade through structured on the job training and formal apprenticeship education
- Work alongside experienced pipefitters and supervisors on real engineering projects
- Develop skills in fabrication, installation, maintenance and reading technical drawings
- Gain hands on experience both in the workshop and on site
- Build strong safety, quality and teamwork habits from day one

### What We Offer

- A recognised national apprenticeship with industry led training
- Long term, secure employment on completion of the apprenticeship
- Clear progression opportunities into skilled pipefitting, supervisory or specialist roles
- Exposure to a wide range of engineering projects
- Supportive team environment with experienced mentors
- A company that invests in its people and promotes from within

### Who We're Looking For

- A strong interest in engineering and pipefitting
- Willingness to learn, work hard and develop technical skills
- Reliable, motivated and safety conscious
- Good attitude and ability to work as part of a team

- Suitable entry requirements for the apprenticeship programme

Previous experience is not required — commitment, motivation and a desire to build a career are what matter most.

—

#### Why Choose Brodeen Engineering?

At Brodeen Engineering, apprentices are seen as the future of the business. We are committed to developing our apprentices into highly skilled tradespeople and offering long term career paths, not short term roles.

If you want to learn a valuable trade, work on real projects, and progress in a company that values its people, this is the opportunity for you.
