## Metal Fabrication - Apprenticeship

### Job Description

Job Description

First Year Apprentice Vacancy

Metal Fabrication Apprentice

The Role

Brodeen Engineering is currently recruiting a Metal Fabrication Apprentice to join our growing fabrication and site teams. This is an excellent opportunity to begin a recognised apprenticeship while gaining hands on experience on high-quality engineering projects across industrial, pharmaceutical, and data centre sectors.

You will learn your trade under the guidance of experienced fabricators and supervisors, combining on-the-job training with off-site phases through SOLAS-approved training centres.

Key Duties & Responsibilities

- Assist with the fabrication of metal components and structures to drawings and specifications
- Learn cutting, forming, welding, and finishing techniques (MIG/TIG/Arc)
- Read and interpret technical drawings and fabrication symbols
- Use hand tools, power tools, and workshop machinery safely
- Support installation works on site when required
- Maintain a clean, safe, and organised work area
- Adhere to all Health & Safety procedures and company policies

What We're Looking For

- Completed Leaving Certificate preferred
- Strong interest in metal fabrication, engineering, or construction
- Practical, hands-on attitude with a willingness to learn
- Good timekeeping, reliability, and work ethic
- Ability to work well as part of a team

What We Offer

- Enrolment in a fully recognised Metal Fabrication Apprenticeship
- Competitive apprentice rates aligned with industry standards

- Structured training and mentorship from experienced tradespeople
- Opportunity to work on high-profile engineering projects
- Long-term career progression within Brodeen Engineering
- Supportive and professional working environment

#### How to Apply

To apply, please send your CV and a short cover note to [Siobhan.keane@brodeenengineering.com](mailto:Siobhan.keane@brodeenengineering.com)

Or apply through [apprenticeship.ie](http://apprenticeship.ie) quoting Metal Fabrication Apprentice – Brodeen Engineering.
