Salary: This appointment will be made on the Assistant Professor merged Salary Scale (€43,425 - €103,582 per annum) at a point in line with current Government pay policy. monthly/weekly payscales. (tcd.ie)

How to apply:

Candidates should submit by e-Recruitment:

A comprehensive curriculum vitae, including a full list of publications

The names and contact details (i.e. addresses, e-mail, etc.) of three referees

A research plan (max. 2 pages)

Applicants are required to submit a two-page research plan outlining their proposed programme of research over the next two years.

The plan should demonstrate how the applicant's research aligns with and would contribute to the Discipline of Radiation Therapy, including its clinical, academic, and translational priorities.

Applicants are specifically asked to:

Outline their key research themes and objectives for the first two years

Indicate how their work would integrate with existing expertise within the Discipline and wider institutional/clinical partners

Describe their strategy for establishing collaborations (e.g., with clinicians, physicists, and/or other relevant stakeholders)

Provide an overview of funding opportunities they intend to pursue, including potential national and/or international schemes

Identify expected outputs and impact, including contributions to the Discipline's research profile

Applicants are encouraged to include a brief section describing their priorities for the first 100 days in post, demonstrating how they would establish and position their research within the Discipline.

Teaching Statement (max. 2 pages)

Applicants are required to submit a two-page teaching statement outlining their teaching experience, approach, and potential contribution to education within the Discipline of Radiation Therapy.

The statement should:

Summarise the applicant's teaching experience (undergraduate and/or postgraduate)

Describe their teaching philosophy and approach, particularly in relation to integrating scientific principles with clinical practice

Indicate how they would contribute to teaching within a Radiation Therapy curriculum
