Qualified Electrician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

As a qualified electrician, you will collaborate closely with our plumbing installation teams to retrofit heat pump systems. Your role will also involve the installation, maintenance and servicing of solar PV panels. This position requires initiative, problem-solving, and communication skills. You will work independently and as part of a team on a range of residential and industrial projects. Key responsibilities include electrical installations of heat pump retrofits, maintenance and servicing of solar PV panels, diagnosing and resolving electrical faults and ensuring all work complies with current electrical standards.
