Senior Associate - Tax- Transfer Pricing

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

As a Transfer Pricing Senior Associate you'll work as part of a dynamic and diverse team of problem solvers with extensive consulting experience, helping our clients solve their complex business issues from strategy to execution documentation and defense. You'll work on complex and challenging multi-jurisdictional assignments and gain experience working with prestigious and interesting clients - from the largest multinational organisations to Irish start-ups and private businesses expanding their international footprint. You'll be encouraged to innovate to solve complex problems and develop digital tools to help us maximize the client experience.

Specific responsibilities include but are not limited to:

Work on a challenging, evolving and varied client portfolio, with excellent opportunities to develop as a manager of your own portfolio.

Build client relationships while assisting in the ongoing management of client projects, business development and participation in various consultancy projects.

Engage in a hybrid working environment with efficient management of personal assignments, coaching and supporting others, while reporting to a team of experienced managers, senior managers, directors and partners.

Mentor and coach trainees, promoting autonomy to make a difference and deliver results.

Lead by example in an environment where innovative thinking, curiosity and a self-led approach to learning are at the forefront of everything we do.

Assist with ongoing learning and development by participating in and assisting the management group with the preparation and delivery of technical training.

Being part of and contributing to fostering the fun working environment offered by PwC and acting as an advocate to promote our continuous learning culture.

Embrace the digital transformation being undertaken in our business. Being motivated to drive the implementation and integration of technologies within our day-to-day business and that of our clients. Digital innovation is a key part of our business and we challenge ourselves to embrace and leverage technology in how we provide solutions and advice to clients.

Bring business knowledge, innovation and insight to create value for clients and the firm.

About you – Key skills and competencies:

At least 3 years experience in Transfer Pricing. The ideal candidate would have experience in a mature TP market where a large proportion of time was spent on consulting projects.

Degree in accounting, economics, finance, international business, law or other relevant disciplines/areas.

Post-graduate degree or qualification preferred with a strong academic record.

Ability to successfully multitask while working independently or within a group environment

Strong business acumen; ability to think commercially on projects and share industry insights with teams.

Ability to identify gaps in the market and support our business development initiative

- This vacancy is suitable for Remote/Blended working
- **Sector:** financial and insurance activities
