About the Role

Raymond Drury t/a Raymond Drury Crash Repairs is currently seeking a skilled and reliable Welder / Fabricator to join our team. The successful candidate will be responsible for fabricating, welding, and repairing metal components and structures to a high standard, ensuring quality workmanship and safe working practices at all times.

Key Responsibilities:

Fabricate and assemble metal structures and components from technical drawings and specifications

Carry out MIG, TIG, and arc welding as required

Cut, shape, and prepare metal materials using specialist tools and equipment

Inspect finished work to ensure accuracy and quality standards are met

Repair and modify metal components where necessary

Maintain welding equipment and tools in good working condition

Work efficiently to meet production deadlines

Maintain a clean and safe working environment

Communicate effectively with team members and management

Requirements:

Previous experience as a Welder / Fabricator

Strong knowledge of fabrication and welding techniques

Ability to read and interpret technical drawings

Experience using welding and fabrication tools and machinery safely

Attention to detail and commitment to high-quality work

Ability to work independently and as part of a team

Good time management skills

Relevant qualifications or welding certifications (preferred but not essential)

Full driving licence (preferred)

What We Offer:

Competitive salary based on experience
