## Warehouse Systems and Operations Supervisor

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

We are seeking a Warehouse Systems and Operations Supervisor to support the continued setup and operational development of our new Limerick fulfilment operation and assist with implementation and consistency of established fulfilment procedures and operational workflows used within our UK and Ireland warehouse activities.

The successful candidate will support warehouse activities including inventory handling, fulfilment workflow coordination, dispatch operations, implementation of operational procedures, and use of warehouse management systems within a growing e-commerce environment.

#### Key Responsibilities:

Support warehouse operational setup and fulfilment workflow implementation activities

Support daily warehouse operations including receiving, storage, picking, packing, and dispatch

Coordinate warehouse workflow and support operational efficiency

Support inventory accuracy and stock control processes

Use warehouse management systems (WMS) to support warehouse operations and inventory tracking

Support implementation and consistency of fulfilment procedures and warehouse workflows across UK and Ireland operations

Assist with implementation of established fulfilment workflows and operational procedures used within the wider group operation and warehouse management system

Liaise with UK-based operations personnel regarding fulfilment procedures and warehouse workflows

Assist with onboarding and operational support of warehouse staff

Ensure compliance with warehouse health and safety procedures

Support operational reporting and warehouse administration activities

Escalate operational issues, stock discrepancies, or delays where required

Requirements:

Experience working in a warehouse, logistics, or fulfilment environment

Previous experience in a supervisory, team lead, or senior operative role

Understanding of warehouse operations and stock control procedures

Ability to work in a fast-paced operational environment

Good communication and organisational skills

Desirable:

Experience using warehouse management systems (WMS) in an e-commerce fulfilment environment, including familiarity with Helm WMS or similar systems

Experience working with established fulfilment workflows and operational procedures

Experience in e-commerce or consumer goods fulfilment

Forklift certification

The recruitment process includes an operational aptitude assessment, which takes approximately 40 minutes to complete, followed by an online interview for shortlisted candidates. Applicants should complete the assessment in accordance with the application instructions provided at the following URL: <https://app.testgorilla.com/s/20d13x19>
