Maintenance Fitter

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

McAree Engineering Works Limited are looking for multiple Maintenance Fitters for their premises at Ballinode, County Monaghan, Ireland. H18 K103.

The salary ranges from €36,000 to €56,000 based on a 39-hour week. Salary may be more based on experience and will increase proportionately if additional hours are required.

We are seeking a reliable and motivated Maintenance Fitter to join our manufacturing and assembly team. The successful candidate will support the assembly, maintenance, installation, and repair of industrial equipment and mechanical components used in production operations.

The role involves working with mechanical assemblies, power tools, lifting equipment, and production systems in a fast-paced industrial environment.

Key Responsibilities

Mechanical assembly of industrial units and sub-components

Maintenance and repair of machinery and production equipment

Use of hand and power tools including drills, grinders, torque tools, and cutting equipment

Reading and interpreting technical drawings and assembly instructions

Bolting, fitting, aligning, and securing mechanical components

Assisting with preventative maintenance activities

Operating overhead gantry cranes and lifting equipment

Supporting production and material handling operations

Ensuring compliance with health and safety procedures

Maintaining quality standards and reporting defects where necessary

Candidate Requirements

Previous experience in a manufacturing, maintenance, mechanical fitting, or industrial assembly environment

Good mechanical aptitude and practical problem-solving ability

Experience using hand and power tools is essential

Ability to read technical drawings and follow instructions

MIG welding experience advantageous but not essential

Overhead crane experience beneficial; training may be provided

Good communication skills and ability to work effectively within a team

Good level of English preferred for safety and operational purposes

Education & Skills

Trade qualification or relevant mechanical experience desirable

Manual handling awareness preferred

Strong attention to detail and commitment to safe working practices

Benefits

Full training provided

Overtime opportunities

Supportive team environment

Career progression opportunities
