## Construction - CAD & BIM Lead

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

We are seeking a CAD & BIM Lead to support the delivery of engineering design projects through effective management of CAD and model-based outputs. This role sits within the engineering team and focuses on ensuring high-quality, consistent, and coordinated drawings and models across all projects.

Working closely with engineering leads and the BIM Manager, the successful candidate will oversee day-to-day CAD/BIM activities within the design office, supporting engineers and technicians in delivering accurate and buildable design information.

### Key Responsibilities:

- Support the day-to-day running of the CAD and BIM office within the engineering team
- Oversee drawing production and ensure consistency, quality, and compliance with company standards
- Coordinate models and drawings with engineering teams to ensure accurate design outputs
- Manage and support CAD technicians and design staff
- Review drawings and models for constructability and completeness
- Maintain drawing registers, revision control, and documentation standards
- Liaise with the Digital Delivery/BIM team where required to ensure alignment of outputs

- Assist engineers in developing coordinated layouts and design information
- Identify and resolve coordination issues within design outputs

Requirements:

- 5–10 years' experience in CAD/BIM within an engineering environment
- Strong proficiency in AutoCAD and Revit
- Solid understanding of engineering drawing production and coordination
- Experience supporting multidisciplinary engineering teams
- Strong attention to detail and quality control
- Ability to manage workload across multiple projects

Desirable:

- Experience in water/wastewater or infrastructure projects
- Previous experience supervising or mentoring CAD/BIM staff
- Familiarity with project documentation systems and workflows

What we offer you:

- The opportunity to join an ambitious and growing organisation.
- Clear progression within engineering design support and leadership
- Monday to Friday working week finishing early on Fridays.

22 days annual leave plus 10 bank holidays.

Competitive base salary.

Access to EAP – 24/7 365 days confidential employee counselling service.
