The Role.

This role will involve working on a range of sewer maintenance, inspection, rehabilitation and repair projects across live wastewater networks.

Key Duties and Responsibilities will include but are not limited to:

Key Responsibilities:

- Carry out sewer rehabilitation and maintenance works.
- Work within live sewer networks.
- Operate sewer cleaning and jetting equipment.
- Carry out sewer inspections and rehabilitation activities.
- Complete daily records and site documentation.
- Adhere to all Health & Safety requirements.
- Work as part of a team to deliver projects safely and efficiently.

The Candidate: Required Experience and Competencies:

- Previous experience working on sewer or wastewater infrastructure projects.

- Experience working within live sewers.
- Experience operating jetting equipment.
- Experience carrying out sewer rehabilitation works.
- Good understanding of Health & Safety requirements.

Become a part of something bigger.

At the heart of GMC is our people, from engineers through to customer service and we aim to work collaboratively towards our common goals.

GMC is an equal opportunity employer, and we aim to recruit and retain like-minded people from diverse backgrounds with a wide range of expertise.

In GMC we foster a work culture that promotes collaboration and learning, building an environment where our people have the capacity to maximise their potential whilst gaining the opportunity to continuously develop.

Our Future.

Since the founding of GMC in 1981 by Gerry McCloskey, GMC has grown to be Ireland's leading Civils and Utilities company and the future for GMC is bright. We have engaged with our staff and other stakeholders to agree and publish our core values.

One of our core values is to "Focus on the Future".

Our growth to date reflects the confidence that our customers have in our service delivery, in the innovative approach that we bring to how we do our work, and to our culture of safety and quality.

We have ambitious plans to develop our footprint in Ireland and overseas but understand that every decision we make contributes to people's quality of life throughout generations, and we don't take that responsibility lightly as we build Ireland's infrastructure of tomorrow, today.
