## Lead Mechanical Technician

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

Lead Mechanical Technician

Location:

Dublin

Contract: Full-time, Permanent, Monday - Friday

Salary: €60,000 per annum

### About the Role

We are seeking a skilled and experienced Lead Mechanical Technician who has a strong mechanical/HVAC expertise background to join our team!

This role is ideally suited to a qualified plumber who has developed solid experience working with mechanical plant, HVAC systems, and building services. You will play a key role in ensuring the safe, compliant, and efficient operation of all plumbing and mechanical systems across a busy production environment.

### What You'll Do

Carry out planned, reactive, and corrective maintenance with a strong focus on plumbing systems and mechanical plant

Maintain and repair domestic and industrial water systems, including pumps, valves, pipework and drainage

Support the operation and maintenance of HVAC systems, boilers, and associated mechanical equipment

Perform inspections and ensure compliance across water hygiene, HVAC, and life safety systems

Manage and close work orders using CAFM systems (Maximo), ensuring accurate reporting and record keeping

Respond to breakdowns and urgent maintenance issues in a timely manner

Assist with small installations, upgrades, and system modifications

Monitor plant performance and proactively identify faults or inefficiencies

Assist in general maintenance tasks, ensuring facilities are kept in good working order.

Ensure strict adherence to health & safety procedures, particularly within a food production environment

Build strong working relationships with clients, contractors, and site teams

#### What We're Looking For

##### Essential

Qualified plumber with experience in mechanical and HVAC systems

Proven experience working in industrial, manufacturing, or large-scale commercial environments

Strong knowledge of water systems, pipework, pumps, and fault finding

Hands-on experience supporting HVAC systems, boilers, and mechanical plant

Good understanding of compliance, particularly in regulated environments

Strong IT skills (Microsoft Office, handheld devices)

Excellent problem-solving and communication skills

##### Desirable

Experience using CAFM systems such as Maximo.

Familiarity with Irish building regulations and standards.

Ability to identify maintenance improvements and cost-saving opportunities.

- **Sector:** construction

#### **Career Level**

- Not Required
