Refrigeration & Air Conditioning Engineer

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Crosbie Group require 2 Senior Refrigeration & Air Conditioning Engineers for its engineering services at Crosbie Group, A2 Riverview Business Park, Nangor Road, Dublin, Dublin, Proven experience as a Senior Refrigeration Engineer, in-depth knowledge of Danfoss, RDM, and PACK systems, experience with CO2 refrigeration systems, proficiency in VRF air conditioning systems, strong problem-solving skills, and excellent communication skills, the salary range starts from €34,000 (€16.35/hr) to €64000 (€30.77/hr.) based on a 40-hour week. Salary will increase proportionately if additional hours are required. Salary offered shall be based on relevant experience and qualifications.

Job Description - The Senior Refrigeration & Air Conditioning Engineer will be responsible for installation, service, commissioning, maintenance, and troubleshooting of advanced refrigeration systems, including CO2-based systems. The role involves hands-on work with leading technology brands, particularly Danfoss, RDM, and PAC systems, and specializing in projects for supermarkets, retail, and hospitality sectors. The engineer will also handle air conditioning units, including VRF systems and chillers, and provide technical leadership by guiding junior engineers.

Installation, service, commissioning, maintenance, and troubleshooting of refrigeration and air conditioning systems. Providing technical leadership and ensuring best practices.
