Electrical Apprenticeship

Job Description

We are seeking a motivated individual to join our team as an Apprentice Electrician. This structured, four-year program combines hands-on, on-the-job training with periods of off-the-job technical learning at an education and training center. Under the supervision of qualified electricians, you will gain comprehensive experience in the installation, testing, and maintenance of electrical wiring systems, control equipment, and containment solutions

The successful candidate will develop a deep technical knowledge base, learn to interpret complex schematics, and practice strict adherence to statutory health and safety regulations. This position is a formal statutory apprenticeship leading to a QQI Level 6 Advanced Certificate Craft – Electrical.

For more information please see apprenticeship.ie

Note: As part of the national apprenticeship system, there are formal requirements for approval of an employer's suitability to train apprentices and for registration of apprentices. Advertising on this site does not guarantee that Employers are approved to recruit and train for apprenticeship positions.
