Procurement Analyst

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Key Responsibilities:

Analyse supplier quotations, pricing structures, and commercial terms to support procurement decision-making.

Conduct sourcing and supplier evaluation activities for international procurement categories, including suppliers outside the EEA.

Evaluate supplier performance using key metrics such as cost, quality, delivery timelines, and compliance.

Maintain and analyse procurement data within ERP and procurement systems (C3)

Prepare procurement reports, spend analysis dashboards, and cost comparison models for management review.

Perform supplier evaluation and selection analysis using structured assessment and scoring methodologies.

Monitor market trends, pricing fluctuations, and supplier risks in assigned international categories.

Analyse commercial and operational contract terms and provide recommendations to procurement management.

Collaborate with internal stakeholders (finance, operations, sales) to align procurement requirements.

Support communication with international suppliers, including those in non-EEA regions. Identify and recommend cost-saving opportunities and supply chain efficiency improvements through procurement data analysis.

Requirements:

2-3 years of experience in procurement, purchasing analysis, supply chain analysis, or sourcing support.

Experience preparing procurement reports, analysing supplier quotations, pricing data, or purchasing trends.

Strong analytical and numerical skills with experience in Excel or BI/reporting tools.

Strong communication and stakeholder engagement skills.

Strong teamwork and interpersonal skills.

Attention to detail and accuracy

Cross-cultural communication

Organisational and prioritisation skills.
