CNC Machinist (Turning)

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

About the Company

SchuF is an international industrial valve company specialising in the design and manufacture of process-critical valves. We are currently recruiting a skilled CNC Machinist to join our manufacturing team in Cork.

Role Overview

The CNC Machinist will be responsible for the manufacture of small-batch metal components from engineering drawings, working to tight tolerances. The role involves programming, setting, and operating CNC turning machinery within a precision engineering environment.

Key Responsibilities

- Manufacture precision components from engineering drawings to tight tolerances
- Program, set, and operate CNC turning machines
- Operate CNC lathes and/or mill-turn machines
- Ensure production targets and quality standards are met
- Inspect finished components using appropriate measuring equipment
- Identify and resolve machining issues to ensure efficiency and quality
- Maintain a safe and organised work environment

Requirements

- Minimum FETAC Level 6 qualification (or equivalent) in a relevant engineering or technical discipline
- Or Minimum 4 years' CNC turning experience (setting and operating)
- Proven experience in CNC programming (lathes or mill-turn machines)
- Strong ability to read and interpret engineering drawings
- Experience working to tight tolerances in a manufacturing environment
- Good attention to detail and problem-solving skills
- Ability to work independently and as part of a team

Skills and Competencies

- Strong time management and ability to meet deadlines

- High level of accuracy and attention to detail
- Effective communication and teamwork skills
- Proactive and flexible approach to work

Benefits

- Competitive salary (€ 51,000 – €59,800 per annum)
- 39-hour week (Monday–Friday, no shift work)
- Company pension scheme
- 20 days annual leave
- Sick pay scheme
- On-site parking

Additional Information

This role may also be described as: CNC Turner, CNC Operator, CNC Programmer, CNC Technician, CNC Engineer, or Toolmaker.
