Job Description

RCC Engineering Ltd trading as RIGHT. Group have a requirement for a Mechanical Maintenance Fitter for a permanent role in the Kerry, Limerick, Cork region.

Responsibilities include:

Carrying out assembly and on-site mechanical installation works associated with wastewater and water treatment plants

Repair and maintenance of equipment in the Water/Wastewater industry.

Completing repairs, upgrades and refurbishment works to existing installed systems

Pump installations, inspections, and general maintenance tasks

Working with various types of pipework – e.g., PVC, Ductile Iron, SS.

Support with daily sales of service and spares to customers and support customers with any issues as efficiently as possible

Complying with all relevant Risk Assessments, Method Statements, Safe Systems of Work Plans

Adherence to required standards, policies, and statutory regulations for Health & Safety.

Completion of daily reports and ensuring company HSQE policies are maintained for all activities.

Identifying and promoting new ideas and improvements to the business via the appropriate reporting mechanisms.

Other duties as may arise from time to time that are consistent with the job-holder's knowledge and skills, and are needed to effectively perform the role.

Key requirements:

Trade qualified Mechanical Fitter or equivalent

Experience in water/wastewater would be a distinct advantage

Experience of working on pumps and pumping systems, motors, gearboxes, and drive systems

Experience with chemical handling an advantage but not essential.

Good IT skills, capable of completing basic reports, emails etc.

Ability to work on own initiative and make on-site decisions where needed.
