#### About Us

Nurney Plant and Civil Ltd is an established plant and civil engineering contractor delivering groundworks, drainage, water, and infrastructure projects across Carlow, Kildare and Wexford. As we continue to grow, we are looking for an experienced Site / Civil Engineer to join our team and play a key role in delivering high-quality projects safely, on time and to specification.

#### The Role

We are seeking an experienced Site Engineer with strong setting-out skills to take responsibility for the day-to-day engineering on our sites. Working closely with the Site Manager and site team, you will set out works accurately, interpret drawings and ensure all works are completed to the required standards — including Irish Water (Uisce Éireann) specifications. This is an excellent opportunity for a hands-on engineer who enjoys varied work and wants to be part of a busy, growing company.

#### Key Responsibilities

Carry out accurate setting out for groundworks, drainage, roads and services using total station, GPS and level equipment

Interpret and work from engineering drawings, specifications and contract documents

Ensure all works comply with Irish Water (Uisce Éireann) specifications and other relevant standards

Produce, update and mark up drawings using CAD

Maintain accurate site records, levels, quantities and as-built information

Carry out dimensional and quality-control checks throughout the works

Liaise with the design team, site manager, gangers, subcontractors and suppliers

Support health, safety and quality compliance on site

#### Essential Skills & Experience

Approximately 4 years' experience in a site / civil engineering role

Proven setting-out experience (total station / GPS / level) — essential

Experience producing as-built drawings and records

Up to date with Irish Water (Uisce Éireann) specifications and standards

Proficient in CAD (AutoCAD or similar) — a must

Confident reading and interpreting engineering drawings

Good working knowledge of drainage, water / wastewater, roads and groundworks

Full clean driving licence

Safe Pass and Manual Handling certification

Strong communication, organisation and problem-solving skills, with the ability to work on your own initiative

#### Desirable

A qualification in Civil Engineering (degree or diploma) is essential

Previous experience on Irish Water / Uisce Éireann projects

Relevant CSCS tickets

#### What We Offer

Excellent rates of pay (depending on experience)

Company van

Permanent, full-time position

Varied and interesting projects across Carlow, Kildare, Laois and Wexford

A supportive team and genuine opportunities for career progression with a growing company

- **Sector:** construction

#### Career Level

- Experienced [Non-Managerial]
