Manufacturing Utilities Technician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Catalyx is seeking a Manufacturing Utilities Technician to join our team and work on our customer site in Cork. This is a 3 cycle shift position.

Responsibilities:

- Responsible for working on assignments that are routine in nature while recognising deviations from accepted or usual practices

- Adheres to written Standard Operating Procedures (SOPs), Master Batch Records and current Good Manufacturing Practices (cGMPs)

- Works in conjunction with Manufacturing Technicians under the guidance of a Team Lead supporting manufacturing activities

- Material Movement

- Manual Cleaning of Equipment

- Blending, Solution preparation and excipient addition

- Monitoring Manufacturing equipment and processes

- Responsible for manufacturing of our customer's products and assists in the inspection of our customer's products, Clinical Trial Material and components

- Complies with all safety-related procedures and practices, individually and in the area

- Complies with well-defined instructions on routine work and detailed instructions on new assignments

- Deliver on agreed KPIs and metrics

- Other duties as requested

- Input information regarding the movement and handling of products in a computerized inventory system and organise and maintain accurate records associated with Distribution activities.

- Perform routine transactions associated with Distribution processes through internal and external computer systems

- Preparation and shipment of product from the customer's distribution centre

- Preparation and rejection of product at the customer's warehouse

Requirements:

A relevant Level 6 qualification or specific industry experience

Demonstrates familiarity with written Standard Operating Procedures (SOPs) and Master Batch

Records while recognising deviations from accepted practice

Excellent written and spoken communication skills with established interpersonal skills

Proficiency in Microsoft Office applications

Demonstrates ability to follow direction and work with only moderate supervision

Proven attention to detail

A can-do attitude towards customer delivery and performance

- **Sector:** manufacturing

Career Level

- Experienced [Non-Managerial]
