Maintenance Technician - Electrical

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Maintenance Technician - Electrical

Location: Sallybrook Industrial Estate, Glanmire, Co. Cork, T45 KA47

Reporting to: Engineering / Maintenance Manager

Company: Elis Textile Services

About Elis

Elis is a leading international provider of textile, hygiene, and Cleanroom services, we are located across 30 countries globally supporting highly regulated industries with contamination control solutions. We partner closely with our customers to deliver reliable, compliant, and high-quality services across pharmaceutical, medical device, and high-tech manufacturing environments.

The Role

As an Electrical Maintenance Technician, you will support the Glanmire operation by ensuring the reliability, safety, and compliance of plant, production, and cleanroom-critical equipment. This is a hands-on technical role within a regulated environment, supporting both day-to-day operations and continuous improvement initiatives.

Benefits

Employee Assistance Programme

Training and development opportunities

Stable, long-term role within a growing business

Safety-focused and professional working environment

Key Responsibilities

Carry out planned preventative maintenance (PPM) and reactive maintenance on production, ICS, and cleanroom equipment

Diagnose faults and complete repairs on mechanical, electrical, and pneumatic systems

Support cleanroom compliance by maintaining equipment to required control standards.

Assist with installation, commissioning, and modification of equipment

Work closely with production, quality, and operations teams to minimise downtime.

Maintain accurate maintenance records and documentation

Ensure compliance with Health & Safety, site procedures, and regulatory requirements. Conduct fire walks at the end of shift ensuring close down procedures are adhered to.

Liaise with external contractors and service providers when required

Skills & Experience

Recognised trade qualification or relevant experience in mechanical or electrical maintenance.

Experience in an industrial or manufacturing environment (cleanroom or regulated experience is an advantage)

Strong fault-finding and problem-solving skills

Good communication skills and ability to work as part of a team

High attention to detail with strong safety awareness

Flexible and proactive approach to work

Hours: 39 hours per week

Salary: €36,605.40 per annum

- **Sector:** other service activities

Career Level

- Experienced [Non-Managerial]
