Senior HGV Technician / Mechanic

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

The Role

We are seeking an experienced Senior HGV Technician / Mechanic to join a professional workshop environment working on modern Euro VI HGVs and LCVs.

This is a role for a complete technician who can maintain, diagnose and repair all aspects of modern commercial vehicles. The successful candidate will be equally comfortable carrying out servicing, advanced diagnostics, electrical fault finding, engine and driveline repairs, and complex vehicle system repairs.

You will have strong experience using OEM diagnostic equipment and a proven ability to identify root causes and deliver effective repairs across mechanical, electrical and electronic systems.

This position will suit a technician who takes pride in quality workmanship, enjoys solving technical challenges and can work confidently across the complete vehicle rather than specialising in one area alone.

Experience working with MAN and Iveco vehicles would be a distinct advantage.

Why Join Us

- Work on modern HGV and LCV fleets across four leading manufacturers
- Join a respected and established commercial vehicle business
- Access ongoing manufacturer training and career progression opportunities
- Work in a modern, well-equipped workshop environment
- Be recognised and rewarded for your technical ability and experience
- Enjoy an excellent work-life balance in the Sunny South East of Ireland

Key Responsibilities

- Carry out servicing, maintenance and repairs on HGV and LCV vehicles
- Diagnose and repair mechanical, electrical and electronic faults
- Use OEM diagnostic equipment to identify and resolve vehicle issues
- Troubleshoot wiring, CAN-bus and complex vehicle system faults

Perform engine, transmission, braking, suspension and driveline repairs

Complete all work to manufacturer and workshop standards

Maintain high levels of workshop safety and compliance

Work collaboratively with colleagues to ensure efficient workshop operations

Accurately complete job cards and supporting documentation

Requirements

Proven experience as an HGV Technician, Mechanic or Commercial Vehicle Technician

Strong diagnostic and fault-finding capability

Experience using OEM manufacturer diagnostic equipment

Excellent mechanical, electrical and repair skills

Good understanding of modern HGV and LCV electronic systems

Experience diagnosing and repairing wiring and electrical faults

Ability to work independently and as part of a team

Commitment to quality workmanship and attention to detail

Relevant trade qualification preferred

Apply Now

If you are a skilled Senior HGV Technician looking for a long-term career opportunity where your experience, technical ability and commitment to quality are genuinely valued, we would like to hear from you.

Apply with your CV, qualifications, and a brief cover note to joe@peoplesolutions.ie.
