Job Description

Job Description:

Position: Carbon & Stainless Steel Welder

Location: Athlone, Westmeath

Start Date: Immediate

Job Summary

The person will be responsible for the fabrication and welding of carbon steel and stainless steel pipework to the highest quality standards, including those required for Irish Pharmaceutical projects. This role requires precision welding to meet industry compliance, the ability to interpret ISO drawings and P&IDs, and a strong understanding of pipe fitting and preparation. You will work as part of a skilled team to deliver high-quality installations within Pharmaceuticals, Data Centres, and Oil & Gas environments.

Key Responsibilities

Perform TIG welding on carbon steel and stainless steel pipework to Pharmaceutical grade standards.

Prepare, cut, fit, and assemble pipes prior to welding when required.

Conduct welding in accordance with project specifications, codes, and compliance requirements.

Successfully complete and pass weld tests before commencing project work.

Read and interpret ISO drawings, P&IDs, and isometric sketches.

Walk pipework systems to verify routes and confirm installation requirements.

Carry out pipe fitting duties including cutting, bevelling, and prepping pipe for welding.

Perform visual and dimensional checks to ensure weld quality and compliance.

Maintain equipment, consumables, and work area in line with company standards.

Work safely and in compliance with site safety policies and industry regulations.

Required Certifications & Training

FÁS Trade Certificate (Welding/Pipefitting or equivalent recognised qualification)

Abrasive Wheels Certification

ECITB (Engineering Construction Industry Training Board) Certification

NVQ (Level 3 in Welding, Pipefitting, or Engineering Construction)

Manual Handling Certification

Working at Heights Certification

IPAF (International Powered Access Federation) License

Safe Pass Certification (or equivalent site safety card)

Experience

Experience on carbon and stainless steel pipework.

Proven track record of delivering welds to Pharmaceutical grade standards.

Experience in Pharmaceuticals, Data Centres, or Oil & Gas projects preferred.

Background in pipe fitting, pipe preparation, and system installation.

Skills & Competencies

Expert knowledge of TIG welding techniques for carbon and stainless steel.

Ability to interpret complex technical drawings (ISO, P&IDs, isometrics).

Strong understanding of pharmaceutical compliance and quality standards.

Skilled in pipe preparation, fitting, and alignment.

Excellent attention to detail and quality assurance.

Strong safety awareness and adherence to industry regulations.

Ability to work independently or as part of a team.

Please email your CV to careers@profleetengineering.com

Alternatively, send me a direct message and I'll be happy to discuss the role in confidence.
