Electrician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Based in unit 2 Pullamore Business Park, Dublin Road, Co. Cavan, Ireland, EireVolt Energy specialises in simplifying the adoption of solar energy solutions for homes, businesses and farms. Our philosophy is to make solar energy accessible and practical for all, starting from the moment customers connect with us.

Due to recent growth and opportunities in the renewables sector, we are seeking to fill a role for qualified electricians to join us and assist our Operations Team.

Annual salary €36605 based on a 39 hour week.

The Role:

Installing solar PV systems throughout a designated area as part of a team

Carry out electrical upgrades to domestic electricity services

Plan work on site in line with the planning, drawings & project requirements

Engage homeowners and advise on works being undertaken

Complete works in the allocated time, ensuring a high standard of work is maintained

Adhere to SEAI code of conduct in relation to installations (full initial and ongoing training provided)

Provide project sign off and photographs to our administration department for processing

Take responsibility for Health and Safety at all times

The Candidate:

RECI or ECSSA certified electrician & apprentice trained.

Experience with solar PV is highly desirable but not essential as training and support will be provided.

Have a very good work ethic and good client interaction skills.

At least 5 years' experience working as a qualified electrician in a domestic setting.

Ability to work in a fast-paced environment as part of a team.

Dependable, flexible and takes pride in their work.

Strong technical understanding of domestic electrical systems.

Enthusiastic & self-motivated.

Strong communication skills

Excellent attention to detail.
