In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Head of Technical Services

Senior Management Role | Technical FM | Digital Transformation & Growth

Location:

Republic of Ireland, No fixed location (candidate must be based in Ireland)

Salary: Highly Competitive Salary + Benefits

We are seeking an exceptional Head of Technical Services, Projects & Digital to provide strategic leadership across technical facilities management, projects, and digital capability throughout the island of Ireland. This is a senior, high-impact role for a forward-thinking leader who can drive innovation, elevate performance, and act as a trusted advisor to operational teams and clients.

You will have the opportunity to create a lasting legacy of excellence and transformation within a dynamic, growing business. We are looking for a leader with a strong growth mindset, intellectual curiosity to challenge traditional approaches, and the ability to translate innovative ideas into practical, high-impact solutions — someone who will go for edge over ease.

The Role

As Head of Technical Services, Projects & Digital, you will define and drive the strategic direction across hard FM services, projects delivery, digital platforms, data, and sustainability.

Operating at the intersection of technical excellence, innovation, and commercial performance, you will play a pivotal role in transforming service delivery, enabling growth, and embedding future-ready solutions.

This role is about leadership, influence, and transformation:

Setting and delivering a clear strategy across technical services, projects, and digital FM

Driving innovation through systems, data, and emerging technologies

Enhancing service quality, compliance, and operational performance

Supporting growth through client-centric and commercially focused solutions

Leading transformation across digital, sustainability, and operational excellence

Key Accountabilities

Provide strategic leadership across hard FM, projects, digital solutions, and sustainability initiatives

Act as a senior advisor to operational teams and clients, supporting performance, innovation, and service excellence

Drive statutory compliance, technical standards, and risk management across all FM activities

Oversee operational effectiveness including KPIs, SLAs, governance, and continuous improvement frameworks

Lead development and optimisation of FM systems (e.g. CAFM/CMMS), reporting capability, and data-driven insights

Champion innovation, digital enablement, and the integration of technology and AI into FM delivery

Support commercial growth through costing strategies, solution design, and new business opportunities

Embed ESG, sustainability, and Net Zero Carbon commitments across service delivery

Lead asset management standards and engineering data strategy

Build, inspire, and develop high-performing technical and digital teams
