Atlantic Aviation Group

With over 55 years of experience, Shannon based Atlantic Aviation Group (AAG) is one of Europe's leading independent aviation solution providers. The company has a strong reputation of providing customers with a complete range of solutions including; aircraft maintenance modifications, technical, engineering and design services, logistics and material solutions and international training and consultancy. This reputation is built on a proud history and tradition of superior craftsmanship, technical expertise and continuous training, which is supported by our flexible, open and partnership-based customer relationships.

The company provides a range of aviation solutions including; Part 145 Aircraft Maintenance, CAMO & Technical Services, Part 21 Design Services and the EASA Part 147 Atlantic Aviation Institute which provides aviation training to airlines, MRO's and companies around the world.

Aircraft Sheet Metal Worker required to join the Structures Team in AAG. In this role you will be required to join the existing team in a busy Production environment. You will be expected to perform all types of repairs, assessments and modifications to Aircraft Structures and components.

### General Responsibility

Accountable for the Safe, On-Time delivery of all Structural repairs.

Repair, rework, install and fabricate the complex aircraft structural assemblies, both internal and external.

Remove and disassemble defective parts of the aircraft

Adhere to company procedures, maintaining Safety and Quality standards at all times, reporting any discrepancies to respective Manager/Team Leader, generating SMS reports as necessary

Carry out all repairs and tasks using the relevant approved Repair Manuals, Drawings/Technical Instructions as provided by the OEM

Maintain a safe, organized and clean work environment according to in house 5S principles, including proper usage of tooling

Ensures relevant repair documentation is completed accurately and in a timely manner

Working collaboratively with your Crew Leader, inspector and the Production team.

Integration of our values and pillars as a constant way of operating including compliance with the organisational policies and procedures detailed in the Atlantic Aviation Group MOE and Supporting manuals.

#### Candidate Requirements

Candidates must have a minimum of 4 years' experience in Aircraft Structures repair/modification.

Heavy maintenance experience is an advantage but not essential.

Must be proficient in the use of Aircraft manuals, Boeing Engine

Atlantic Aviation Group is an equal opportunities employer. The people of Atlantic Aviation Group are the foundation of its success, and we believe that employing a diverse workforce is key to this success.

- **Sector:** other service activities
