Maintenance Technician (Electrical/Mechanical)

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

As a Maintenance Technician, you will inspect, repair, and maintain mechanical and electrical equipment in assigned facilities.

This job is part of the Engineering and Technical Services job function. They are responsible for providing support, preventive maintenance, and repairs on equipment and systems.

What You Will Do:

Oversee electrical/mechanical and lighting systems' general operation, repair, and maintenance.

Perform new installations of equipment.

Check, repair, and replace functional components of electrical and lighting systems. This includes valves, motors, controls, switches, gauges, wiring, fans, pumps, compressors, condensers, cores, and pipes.

Assure that equipment is being maintained and operating in a safe manner.

Review historical maintenance records to create proactive inspection, testing, and preventive maintenance schedules.

Provide efficient and reliable service to customers.

Apply general knowledge of standard principles and techniques/procedures to accomplish assigned tasks and solve routine problems.

Have a broad knowledge of own job discipline and some knowledge of several job disciplines within the function.

Lead by example and model behaviors that are consistent with CBRE RISE values. May convince to reach an agreement.

Impact the quality of own work and the work of others on the team.

Work primarily within standardized procedures and practices to achieve objectives and meet deadlines.

Explain complex information to others in straightforward situations.
