Business Operations Analyst – SAP Warehouse & Logistics Systems

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Glenhaze Distributors Ltd based in Unit L, Ballymount Cross Industrial Est., Ballymount, Dublin 24, D24 XW21 are looking to recruit a Business Operations Analyst – SAP Warehouse & Logistics Systems to join their team.

Salary: €40,904 per annum

Hours of Work: 39 hours per week

Key Responsibilities & Duties of the role include -

Lead and analyse SAP S/4HANA Warehouse and Logistics processes to improve operational efficiency, inventory management, order fulfilment, and supply chain performance.

Mapping and redesigning FMCG business requirements and operational workflows, translating business needs into SAP system improvements, process enhancements, and practical technology solutions.

Support business analysis, testing and implementation of SAP S/4HANA configuration changes and system enhancements, and continuous improvement initiatives across warehouse, logistics, and supply chain functions.

Conduct detailed analysis of warehouse and logistics processes, identifying opportunities for automation, process standardisation, and improved system utilisation.

Analyse operational, financial, and supply chain data to prepare reports, identify trends, and support business decision-making. Analysing warehouse KPIs and service-level performance.

Develop insights from SAP-generated data to improve inventory accuracy, warehouse performance, resource utilisation, and overall operational effectiveness.

Collaborate with warehouse teams, supply chain stakeholders, finance teams, and technical specialists to gather requirements and implement system improvements.

Support the integration of SAP S/4HANA solutions with wider business operations, ensuring alignment between technology capabilities and organisational objectives.

Provide ongoing support, documentation, and guidance to business users to maximise the effectiveness of SAP warehouse and logistics systems.

Required Skills & Experience

Strong understanding of FMCG warehouse and logistics processes, including: High volume inbound/outbound flows, Retail customer compliance, Shelf life and batch management, Promotional and seasonal demand spikes

Proven experience leading projects in a fast paced operational environment.

Ability to translate business needs into robust, scalable solutions.

Strong analytical and communication skills with a hands on, problem solving mindset.

Preferred Qualifications

A third-level qualification in Business, Operations Management, Supply Chain Management, Information Systems or a related discipline is essential.

What You'll Bring

A passion for operational excellence and a deep appreciation for the speed and precision required in FMCG.

The ability to balance strategic thinking with hands on execution.

A collaborative, proactive approach that helps teams move quickly and confidently.
