The successful candidate will be responsible for designing, maintaining, and improving mechanical systems and equipment, providing technical expertise, and ensuring projects are delivered safely, efficiently, and in compliance with relevant standards and regulations. You will work closely with multidisciplinary teams to identify and implement continuous improvement initiatives, troubleshoot complex mechanical issues, and support planned and reactive maintenance activities. The ideal candidate will have a strong technical background, excellent problem-solving and analytical skills, and the ability to manage multiple priorities while maintaining a strong commitment to health, safety, and quality. This is a full-time role of 39 hours per week with an annual salary range of €45,000-€55,000. Interested applicants should send their CV to info@aureolglobalconnections.com.

- **Sector:** professional, scientific and technical activities
