Mechanical Engineer Graduate

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Graduate Mechanical Engineer

Roadstone is the leading manufacturer and supplier of building materials in Ireland. Roadstone's nationwide business includes the manufacture and distribution of a wide range of construction products including concrete, aggregates, asphalt and macadam, concrete blocks and paving products.

Graduates are invited to apply for the position of Graduate Mechanical Engineer as part of the Operations Division based in one of the main Roadstone locations. The successful candidate will report to the Regional Operations Manager.

There are positions available throughout Ireland, the role will be based regionally and you will work within several sites in the region

About this role

The candidate will have the following specific responsibilities:

Learn & understand the operation and maintenance requirements of our mobile and fixed plant and equipment.

Be involved in process projects that target sustainability or efficiency improvements.

Involved in ensuring we maintain and progress our high health, safety and environmental standards.

Co-ordinate and oversee maintenance operations under the guidance of location management.

Ability to communicate information and plans effectively to both employees and contractors.

Candidates should ideally possess:

A relevant third level Qualification in Mechanical Engineering or similar qualification.

Team player with a positive attitude.

A clean driving licence will be required, as a company vehicle is supplied.

Good communication and interpersonal skills.

Good IT skills.

Proactive, organised, results driven and self-motivated.

Graduates will take part in our two-year graduate development programme, which will guide you

through a semi-structured programme across various areas in our business in order to develop technical, interpersonal, commercial and management skills.

Benefits;

Competitive Salary

Pension Scheme with Employer contribution

Share Participation Scheme (Revenue Approved)
