CNC Machinist - 3-axis

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

We seeking an experienced CNC Programmer / Operator to join an established engineering team at a world-renowned precision engineering company. In this role, you will be responsible for programming and operating advanced CNC machines to manufacture high-precision components for the Aerospace sector. This is an exciting opportunity to contribute to cutting-edge projects within a highly respected organization.

Role: CNC Programmer and Operator - 3 axis machines

Overall Objective: As a key member of the Engineering team the CNC Programmer will program, tool & set up CNC 3-axis machines.

Reporting to: Engineering Manager

Required Qualifications

- Skills / Experience: 3+ years of experience with CNC machines, including 3-axis machines.
- Experience with CAD/CAM software.
- Ability to set up, operate, and maintain 3-axis CNC machines.
- Skill in reading and interpreting technical drawings.
- Use of precision measuring tools and understanding of geometric dimensioning and tolerancing (GD&T).
- Ability to identify and resolve operational issues, ensuring precision and quality.
- Excellent written and verbal communication skills.
- Highly self-motivated and the ability to work on own initiative.

What We Offer

- Salary: 38,000.00 to 44,000.00 Euro per Year (DOE)
- Benefits: 20 days annual leave.

- Professional Development: We are committed to your professional growth, providing opportunities for ongoing training, career development, and advancement within the company.

- Other Perks: Wellness and team events.

Relocation details:

- The right candidate must be willing to relocate permanently to Ireland.
- Traveling costs (not reimbursed)
- Work Visa application (if necessary) covered by the employer.
