UX & GRAPHIC DESIGN ASSISTANT - WPEP Scheme

Application Details

This Work Placement Experience Programme provides Participants with an opportunity to gain meaningful work experience, learning and training while on the programme. This programme is for jobseekers who are in receipt of qualifying social welfare payments and those transferring from a social welfare scheme or an ETB Training Allowance. Your eligibility for this programme will be verified by the Department as part of the application process.

Job Description

We're looking for a UX & Graphic Design Assistant to join Slick+ and help shape how our product looks, feels, and works for the people who use it every day.

It's a hands-on, varied role — you'll get stuck into real design work from day one, helping build out the self-serve experience for our software and putting together prototypes for the platform.

You'll work closely with the founding team and alongside our developers, helping create simple, well-designed experiences that make it easy for frontline and deskless workers to get value from Slick+ fast. Perfect to learn and gain experience working closely with a product team in the software sector.

Role Description

This is a training and work experience opportunity; no prior experience in this role is necessary. Accredited and/or sector recognised training will be provided to support your placement. Participants are eligible to participate in the WPEP QQI Work Experience Module which was developed by the Education & Training Boards in collaboration with the Department of Social Protection. This optional module will fulfil your accredited training requirements for the WPEP.

Formal training will be provided in video editing, customer support and UX for SaaS self-serve.

Informal training will be provided in Github, Jira and key workplace productivity and communication tools; as well as presentation skills.
