J&L Healthcare Furniture Ltd is seeking an experienced Machinist to join our manufacturing team specialising in healthcare chair production. The ideal candidate will have experience operating classic woodworking and furniture-making machines, with a minimum of 3–4 years' experience in chair or furniture manufacturing.

This role involves producing high-quality components for healthcare seating, ensuring accuracy, durability, and consistency across all manufactured parts.

Key Responsibilities

Operate classic furniture-manufacturing machines (saws, planers, spindle moulders, sanders, etc.)

Manufacture chair frames and components to precise measurements

Prepare, cut, shape, and finish timber and composite materials

Work closely with the production team to meet quality and delivery targets

Maintain machinery, tools, and a safe working environment

Follow production drawings, templates, and specifications

Ensure all work meets healthcare durability and safety standards

Essential Requirements

3–4+ years' experience as a machinist in furniture or chair manufacturing

Strong experience with classic woodworking machines

Ability to produce accurate, consistent components

Good understanding of furniture assembly processes

Reliable, punctual, and able to work independently

Strong attention to detail and quality

Own transport required (workshop located in Navan)

Desirable (Not Essential)

Experience in healthcare furniture manufacturing

Ability to read technical drawings

Experience with jig making or template work

Willingness to support continuous improvement in production

What We Offer

Part-time hours with potential for increased hours

Competitive hourly rate based on experience

Friendly, supportive workshop environment

Opportunity to grow within a developing Irish manufacturing business
