In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

HS Enterprizes & Technologies Ltd is seeking a skilled and motivated Game Developer to join our technology team. The successful candidate will develop, test, maintain and support interactive games and digital experiences for the company and its clients.

Key Duties & Responsibilities

- Design, develop and maintain games and interactive digital applications.
- Develop gameplay features, mechanics and user interactions.
- Work with game development engines such as Unity or Unreal Engine.
- Write, test and maintain code using relevant programming languages such as C#, C++ or similar technologies.
- Integrate graphics, animations, audio, APIs and other game assets into functional applications.
- Identify, troubleshoot and resolve bugs, performance issues and technical problems.
- Test and optimise games for performance, stability and user experience.
- Develop and implement new game features and functionality.
- Collaborate with designers, developers and other team members throughout the development process.
- Maintain source code, version control and relevant technical documentation.
- Provide ongoing technical support, updates and maintenance for developed games and interactive applications.

- This vacancy is suitable for Remote/Blended working

- **Sector:** information and communication
