Electrician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

As an Electrician, you will play a crucial role in the installation, testing, maintenance, and commissioning of electrical systems for renewable energy projects, including solar PV, battery storage, EV chargers, and heat pumps.

What you'll do:

Install and commission Solar PV systems, battery storage systems, and EV charging points.

Carry out electrical work associated with heat pump and renewable energy

Ability to work independently and as part of a team.

Strong attention to detail and commitment to quality workmanship.

Experience with Solar PV installations (desirable) installations.

Perform testing, fault-finding, and troubleshooting of electrical systems.

Complete electrical inspections and certification in accordance with current regulations.

Ensure all work is completed safely and to a high standard.

Work closely with project managers, engineers, and installation teams.

Maintain accurate records of completed works and certifications.

Deliver excellent customer service and communicate professionally with clients.

Ensure compliance with health and safety policies and industry standards.

What you'll need

Qualified Electrician with relevant trade certification.

Experience in domestic and commercial electrical installations.

Strong fault-finding and diagnostic skills.

Full clean driving licence
