Formwork carpenter

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Key Duties and Responsibilities

Set out, install, and align concrete formwork systems in accordance with construction drawings and specifications

Install reinforcement components, bracing systems, and structural fixings for concrete construction

Prepare, assemble, and secure formwork and shuttering elements prior to concrete placement

Assist with concrete pours, including vibration, levelling, and finishing activities

Cut, shape, and fit formwork materials as required on site

Read and interpret construction drawings, site plans, and technical specifications

Carry out quality checks to ensure structural accuracy and compliance with project standards

Operate tools, equipment, and temporary works systems safely and efficiently

Coordinate with site managers and other trades to ensure efficient workflow

Maintain a safe and orderly work environment in compliance with health and safety regulations

Skills, Experience and Qualifications Required

Minimum 2 years' experience in formwork, concrete construction

Ability to read and interpret technical drawings and construction specifications

Competence in the use of hand and power tools relevant to carpentry and formwork installation

Practical knowledge of concrete placement and structural assembly processes

Strong understanding of construction site safety standards and procedures

Ability to work independently and as part of a team

Desirable (Advantageous)

Formal qualification in carpentry, joinery, or formwork installation

Knowledge of temporary works and bracing systems

Previous experience on residential or commercial construction projects

• **Sector:** construction
