This is an on site role. This role supports enterprise sustainability strategy execution with a focus on EU regulatory compliance (EUDR and other emerging regulations), Scope 3 emissions reduction, and supplier engagement. The contractor will provide both strategic coordination and analytical support to enable effective delivery of cross-functional initiatives.

Key Responsibilities:

Regulatory Compliance & Program Coordination

Coordinate cross-functional stakeholder meetings to support EUDR readiness

Track milestones, risks, and interdependencies across other environmental regulatory workstreams

Support execution of governance, reporting, and communication processes

Supplier Engagement & Communications

Execute supplier engagement initiatives aligned to sustainability and regulatory priorities

Support rollout of supplier communications, forums, and engagement plans

Maintain strong coordination across procurement, sustainability, and business teams

Training & Change Management

Develop clear, practical training materials on EUDR and Scope 3 processes

Translate complex regulatory requirements into actionable guidance for internal stakeholders •

Support capability building across business units

Scope 3 Strategy Execution & Data Analysis

Support analysis of supplier and emissions datasets to identify reduction opportunities

Contribute to execution of the Scope 3 roadmap following release of the corporate standard (est.

June 2026)

Provide data-driven insights to support decision-making and prioritization

My Green Lab Program Support

Coordinate My Green Lab initiatives and stakeholder engagement during coverage period

Ensure continuity of program activities while team members are on leave

Maintain tracking, communications, and reporting

Value Proposition

Accelerates progress on EUDR compliance efforts

Strengthens supplier engagement and Scope 3 program execution capacity

Provides additional analytical and coordination support during a critical roadmap implementation phase

Ensures continuity of My Green Lab and sustainability initiatives during team transitions across business units.
