Lineworker (Overhead Lines)

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

The role of Lineworker is responsible for the construction, maintenance, repair, and inspection of overhead electrical distribution and transmission networks. The role involves working at height, operating specialised tools and equipment, and ensuring the safe and reliable delivery of electricity. The Lineworker must adhere to all safety procedures, regulations and Company and client policies and procedures while working in challenging outdoor environments.

Key Responsibilities:

- Install, maintain, repair and replace overhead and underground power lines, poles, transformers, insulators and related electrical equipment.
- Erecting and replacing poles, crossarms insulators, conductors, stays and associated hardware.
- Installation and commission of transformers and network equipment.
- Planned maintenance and asset replacement programmes.
- Network upgrades and reinforcement projects.
- Locating, diagnosing and restoring supply interruptions and support team restoration activities.
- Operate tools, equipment and vehicles in accordance with training, certification and authorisation.
- Climb poles to service power lines.
- Service transmission and distribution lines from power plants to buildings.
- Install electrical equipment for power systems.
- Repair aboveground and below-ground power lines.
- Comply with all Health, Safety and Environment legislation, Company and client policies and procedures.
- Participate in team briefings, toolbox talks and training as required by the Company and its client.
- Maintain accurate records and documentation relating to work activities.

- Work collaboratively with team members and follow instructions from supervisors and experienced Lineworkers to support the safe and efficient completion of work activities.
- Communicate effectively with customers, landowners and stakeholders when carrying out work activities.
- Support apprentices/trainee Lineworkers through knowledge sharing and on-the-job guidance.
- Respond to emergency callouts and outage restoration activities.

To be considered for a Lineworker role, you will Ideally have the following:

- Minimum 2 years' experience working as a qualified Lineworker within overhead distribution or transmission networks.
- Demonstrated knowledge of overhead electrical distribution and transmission systems.
- Ability to work at heights and in varying weather conditions.
- Knowledge of electrical safety rules and industry standards.
- Full Driving Licence and willingness to travel and work at various customer sites.
- Availability to work shifts, evenings, weekends and on short notice.
- Demonstrated proficiency in spoken and written English.
- Valid Safe Pass, Manual Handling is desirable.
