Job Description

Multiple Locations :

- NASSAU ENGINEERING LTD., Unit B4, Canal Bank, Pk W Ind Pk, Dublin 12, D12 ARX3
-

The company brings expertise and excellence to metal sheet fabrication, serving a wide range of industries – from aerospace to construction and beyond. As an industry leader, they are driven by precision, innovation, and a passion for growth. Their commitment to quality extends to their team; they provide continuous training, skill development and clear paths for career advancement, creating a vibrant, supportive environment where you can thrive.

In this role, you'll work hands-on with a variety of metals, cutting, shaping, and assembling precision components tailored to client needs.

Whether you're just starting out or bring a wealth of experience, the employer is dedicated to empowering you to excel and grow with the company.

Are you the right person for this job?

Previous experience in S/S fabrication, carbon steel, tig welding or a related field is required.

Preferable to have completed a recognized apprenticeship.

MIG welding carbon & stainless-steel welding certs an advantage.

Ability to read and understand blueprints and diagrams.

Strong attention to detail and commitment to quality.

Safety = focused mindset

What will your role look like?

Operate tools and machinery, including semi-CNC equipment, welders, grinders, guillotines, punch press, and rollers.

Read and interpret blueprints and technical drawings.

Measure and cut metal sheets with precision.

Perform quality control checks to ensure that final products meet standards.

Maintain equipment and work areas to uphold safety and efficiency.

Salary: €38,532 per annum (€19.00 per hour), based on 39 hours per week. Overtime may be required and will be paid at the applicable overtime rate.
