Ashphalt Supervisor

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

The Asphalt Supervisor oversees operations and directly supervises and coordinates the activities of workers engaged in construction and related civil engineering tasks. The role ensures that projects are completed efficiently, safely, and in compliance with design specifications and industry standards.

Tasks and Responsibilities:

Directly supervises and coordinates the activities of road surfacing and civil engineering workers and/or subcontractors.

Manages and monitors work schedules to meet productivity requirements.

Oversees the setup and operation of machinery and equipment used in road surfacing, including pavers, rollers, and graders.

Liaises with managers, contractors, and other stakeholders to resolve operational and technical challenges.

Ensures compliance with health and safety regulations and industry standards across all activities.

Determines or recommends resource requirements, including staffing, materials, and equipment, to meet productivity and quality objectives.

Conducts inspections to ensure that work adheres to project specifications, quality standards, and timelines.

Reports regularly to managerial staff on the progress, challenges, and outcomes of road surfacing and civil engineering projects.
