Junior Consultant, Data Protection

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

About us:

Pembroke Privacy is a data protection, privacy & AI governance consultancy based in Ireland and the UK. We provide organisations with the knowledge, skills and resources required to manage their data protection compliance obligations successfully under the GDPR and other information privacy laws. We are trusted data protection and AI governance partners to global organisations with a focus on life sciences, technology and financial sectors.

Job Summary:

Our Junior Consultants, employed in Ireland, begin their careers in data protection, privacy and AI Governance, supporting the delivery of advice to clients across Ireland, the UK and the USA in the Fintech, Pharma and IT sectors. Working closely under the supervision of experienced colleagues, Graduates assist in conduction DSARs and DPIAs, contribute to GDPR research and client documentation, and develop a strong foundation in data protection law and practice. This is a structured role designed to build the technical knowledge, professional skills and client facing confidence required to progress within the firm.

Working a 39 hour week your key responsibilities include:

1. Client Services

Support the Team in delivering data protection advice and DPO services to clients under the supervision of an associate/senior consultant. Assist with note taking, research, and administrative tasks related to client projects. Record all time spent with clients in our bespoke Time Recording System daily, ensuring no time is omitted. Revenue is earned through billed time and this is essential to ensure clients are billed in full for all support provided, whether they are billed monthly or on project completion.

2. Marketing

Assist with proofreading and formatting marketing materials and content as directed.

3. Knowledge

Develop foundational knowledge of data protection law and privacy regulations. Work towards obtaining IAPP certification and maintain CPE requirements.

Required Qualifications: Education and Experience

- Bachelor's Degree in Fintech, Pharma, IT or Law
- 0 – 2 Years experience Data Protection in similar fields

Technical Skills

- One Trust or relate DPO Administrative platform
- **Sector:** information and communication

Career Level

- Entry Level
