### Job Description

The successful candidates will deliver a high level of supply chain excellence in a fast paced, dynamic environment. A key requirement of the role includes creating partnerships with commercial and operations teams to maximise availability to customers and supply chain efficiency.

What you'll be doing:

Key duties include but are not limited to:

- Managing inventory to ensure 100% availability to support customer demand.
- Utilising the ERP system for processing purchase orders and controlling inventory
- Measuring and managing supplier delivery performance through an account manager approach with appropriate regular service levels communication and calls
- Identifying and challenging safety stock levels, MOQ's and supplier lead-times as part of your inventory management with a focus on providing optimal availability and shelf life to customers.
- Managing waste risk on short life product and analysing opportunities to optimise waste management.
- Liaising with Trading and Sales colleagues to manage range and inventory ensuring overstocks, residual stocks and waste risks are being addressed
- Providing ad hoc inventory analysis and reporting for your portfolio
- Supporting Demand Planners with forecasting on standard and promotional activity across all channels (including of anticipation of seasonal trends)
- Collaborating closely with warehouse team to achieve maximum efficiency
- Communicating product availability/recovery to the wider business
- Reviewing operating systems, processes and practices on an ongoing basis, recommending changes to improve operational effectiveness and efficiency to reduce costs
- Ensuring the business achieves stock management targets
- Supporting new customer and new product launches
- Devising, implementing and managing supply chain projects that deliver added value services and cost benefits

What we're looking for:

#### Experience, Skills and Education

- The successful candidate will have / be:
- Previous experience in Inventory Planning essential, ideally in a wholesale/foodservice environment
- Excellent planning and time management skills, with the ability to confidently prioritise tasks
- An understanding of forecasting activity and supplier management
- Track record in the process development to drive continuous improvement
- Proficient in Microsoft Office, specifically Outlook, Excel, PowerPoint
- A team player with a high degree of enthusiasm, coupled with the ability to achieve results and adapt to change in a fast-paced environment.
- Third Level Qualification, degree desirable or equivalent business experience

Salary is €44,000 per year

Hours per week are 37.5
