Raffeen Industrial Estate, Ringaskiddy Road, Monkstown, Co. Cork T12 TW44

Smithstown Industrial Estate, Shannon, Co. Clare V14 FT53

The ideal candidate will be a Civil Engineer with experience in drainage services, infrastructure projects and site operations, responsible for managing and delivering drainage surveying, testing, inspection and rehabilitation projects. Duties will include planning and coordinating project activities to ensure works are completed on time, within budget and to the required quality standards, while

providing technical engineering support to site teams and subcontractors. The role involves overseeing drainage and asset surveys, testing and repair services, maintaining quality control systems, preparing project reports, and producing risk assessments and method statements (RAMS) to ensure compliance with health, safety and environmental requirements. Candidates should hold a degree in Civil Engineering, Construction, Surveying or a related discipline and have experience managing site works, project delivery, crews and safety procedures. Knowledge of drainage surveying, asset inspection, pipeline testing and rehabilitation works would be advantageous. The successful candidate will work closely with clients, contractors and project teams to support the maintenance and improvement of drainage and utility infrastructure while ensuring high standards of workmanship, regulatory compliance and customer service. This is a full-time role of 39 hours per week with an annual salary range of €36,605-€46,000. Interested applicants should send their CV to info@aureolglobalconnections.com.
