Maintenance Fitter

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Kilsaran Paving and Walling requires multiple Maintenance Fitter roles for their premises at Piercetown, Dunboyne, Meath, A86W820.

The salary range starts from €36,605 (18.05/hr) to €54,000 (26.63/hr) based on a 39-hour week.

Salary will increase proportionately if additional hours are required.

Salary offered shall be based on relevant experience and qualifications.

Job Description - Kilsaran is recruiting experienced Electricians for its Paving & Walling production facilities in Dunboyne, Co. Meath. The role has full responsibility for routine maintenance, servicing and repair of plant equipment and machinery, ensuring safe and efficient operation to support demanding production schedules. The electrician will fix breakdowns, assist with electrical installations, liaise with contractors and suppliers, and prioritise preventative maintenance. A strong focus on health and safety is required, demonstrating leadership by example and full compliance with company HSE policies and procedures.

Maintain all production machinery and equipment in coordination with fitters; diagnose and fix electrical breakdowns; assist with electrical installations; implement and carry out preventative maintenance programs; liaise with contractors and suppliers regarding works and parts; ensure compliance with company health and safety policies, report hazards and incidents, and promote safe working practices on site.

KEY REQUIREMENTS

Required Qualifications - Fully qualified Electrician (QQI Level 6) with a minimum of 5 years relevant experience. Experience in industrial and domestic installation techniques, proven ability to maintain and repair production machinery and electrical equipment, experience diagnosing and rectifying breakdowns, ability to assist with electrical installations, good communication skills to liaise with contractors and suppliers, strong commitment to health and safety and preventative maintenance

practices. Relevant electrical trade certifications and experience working in a manufacturing or heavy production environment are preferred.

- **Sector:** manufacturing
