Job Description

Location: Dublin, Republic of Ireland

Salary and Benefits: €80,000 DOE | Car Allowance | Sodexo Benefits

Contract Type: Full-Time | Permanent | Monday – Friday

About the Role

We are seeking an experienced Senior Technical Services Manager to lead the delivery of Hard FM services across a high-profile client portfolio in Dublin.

This is a senior operational leadership role responsible for managing technical services, engineering teams, specialist contractors, compliance, and service performance across multiple sites within a fast-paced corporate environment.

You will play a key role in driving operational excellence, ensuring statutory compliance, managing financial performance, and building strong client relationships while leading a high-performing technical services team.

Key Responsibilities

Lead the delivery of all Hard FM and technical services across the portfolio

Manage engineering teams, CAFM administration, contractors, and specialist vendors

Ensure PPMs, reactive works, and projects are delivered on time and within budget

Drive SLA/KPI performance, compliance, and continuous improvement initiatives

Manage contractor performance, variation orders, and technical service standards

Support financial performance through cost control, forecasting, and budget management

Build strong relationships with clients and manage escalations professionally

Ensure compliance with all statutory, health & safety, and contractual requirements

Support mobilisation activities, innovation projects, and service improvements

About You

Essential

7+ years' experience within Hard FM / Technical Services environments

Strong technical or engineering background

Proven experience managing technical teams and contractors across multiple sites

Strong understanding of compliance, PPMs, reactive maintenance, and CAFM systems

Commercially aware with experience managing budgets and service performance

Excellent stakeholder and client management skills

Strong leadership, communication, and problem-solving abilities

Desirable

Technical or Engineering qualification

NEBOSH or equivalent health & safety qualification

Experience within large corporate or critical environments
