## Temporary Traffic Management Designer

### Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

### Job Description

We are looking for a motivated AutoCAD Designer to join our team in Cavan Town. The successful candidate will be responsible for preparing temporary traffic management designs using CAD and/or bespoke design software. This role would suit a candidate with strong technical skills and an interest in infrastructure, highways, or civil engineering.

#### Key Responsibilities:

- Produce accurate and efficient designs for temporary traffic management schemes
- Use AutoCAD and other bespoke software tools to create drawings and layouts
- Work closely with engineers, project managers, and site staff to deliver practical solutions
- Ensure compliance with industry standards, health and safety requirements, and client specifications
- Maintain organised records of drawings and revisions
- Learn and adapt to specialist traffic management design software, ensuring continuous improvement in design efficiency
- Communicate clearly with internal teams and clients to clarify design requirements, resolve technical queries, and support project delivery
- Review site photographs, surveys, and project data to ensure designs accurately reflect real-world conditions and operational constraints.

#### Requirements:

- Minimum graduate-level qualification in engineering, design, or a related technical field
- Strong AutoCAD skills (experience with traffic management design an advantage)
- Ability to learn and adapt to bespoke software tools
- Good attention to detail and accuracy in technical work
- Strong communication and teamwork skills
- Experience in a similar role is preferred but not essential

What We Offer:

- Full-time, permanent position in Cavan Town
- Training and mentoring in traffic management design and use of specialist software
- Career progression opportunities in a growing organisation
- Supportive and collaborative working environment

- **Sector:** construction

**Career Level**

- Experienced [Non-Managerial]
