Solar Panel Fitters

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Our client, Solar Beo Limited, based in Dingle, Co. Kerry, is currently seeking Solar Panel Fitters for immediate start at their facility in Dingle, Co. Kerry.

Key Responsibilities & Duties

- Install, position, and secure solar PV panels, mounting frames, and associated racking systems on rooftops and ground-mounted arrays.
- Carry out electrical installation work including DC string wiring, inverter installation, AC connections, isolators, distribution boards, and battery storage systems.
- Interpret and work from technical drawings, wiring diagrams, and installation specifications.
- Test, inspect, and commission completed installations, including insulation resistance, polarity, and earth continuity testing, and complete associated test records and certification.
- Diagnose and rectify electrical faults in solar PV systems and associated equipment.
- Carry out planned and reactive maintenance on existing installations.
- Ensure all work complies with Safe Electric requirements where applicable, SEAI installer standards, building regulations, and site health and safety requirements
- Complete job documentation, test records, ESB Networks connection paperwork and handover documentation accurately and on time.
- Work at height safely using appropriate access equipment, harnesses, and edge protection in accordance with health & safety.
- Liaise professionally with clients, site managers, and other trades on site.

Requirements: Skills & Experience

- Minimum of 3 years previous experience in a Solar Panel Fitter role or similar
- Demonstrable experience installing and wiring solar PV systems, or comparable electrical installation experience.
- Experience in diagnosing and rectifying electrical faults in solar PV systems
- Experience in testing, inspecting, and commissioning completed installations, including insulation resistance, polarity, and earth continuity testing.
- Competent to carry out planned and reactive maintenance on existing installations
- Ability to read and interpret electrical schematics and installation drawings.
- Competence in working at height and awareness of relevant safety regulations.
- Electrical qualification is a plus but is not mandatory as further training will be provided

Annual Remuneration: €36,605.00; Pay rate €18.05 per hour

Work Location: Solar Beo Limited, Milltown, Dingle, Co. Kerry, V92 R159.

Number of hours work each week: 39
