Avionics Mechanic

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Ryanair Engineering Delivered by PAM Ireland Ltd has an exciting opportunity for Avionics Mechanics to join our team in our facility at Hangar 5, Shannon Airport.

Reporting to the Check/Zone Supervisor, the successful candidates will join a team of highly skilled staff, contributing to the safe maintenance of a fleet of 600+ aircraft for one of the world's largest and most successful airlines. This role provides an opportunity to work in a fast-paced, evolving environment, offering significant growth potential in the aviation industry.

Key Accountabilities and Responsibilities:

Responsible for performing Avionic inspections, routine maintenance, wiring modifications and systems troubleshooting.

Ensuring aircraft documentation is completed and certified in accordance with the MOE and company procedures.

Adherence to all company regulations and safe working practices.

Maintaining a safe and clean working environment at all times.

Carry out any other tasks as reasonably required by the Check/Zone Supervisor.

Knowledge, Skills and Experience:

Must have avionic maintenance experience, preferably hangar based.

Previous maintenance experience on Boeing 737-800 is highly desirable.

Experience of wiring modifications and electrical hand skills.

Ability to read and understand wiring diagrams and schematics.

Be self-motivated, and able to work without direct supervision.

Excellent spoken and written English is essential.

This role is Shift Work. Day Shift 7am-7pm and Night Shift 7pm-7am.

12-hour rotating shift of 5 on / 3 off, 4 on / 4 off. You will work 2,080 hours per annum, averaging 40

hours per week.

- **Sector:** transportation and storage
