GMP Contamination Control Technician

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Employer: SSE (part of the CWS Group)

Location: Client site in Raheen, Limerick – controlled, high-spec environment

Pay: €17.76/hour (inclusive of 12h shift allowance)

Schedule: 12-hour shifts (only 7 working days over 2 weeks - including weekends)

SSE has over 20 years' experience delivering professional cleaning and contamination control services across highly controlled environments. We're growing our team and looking for reliable people who want to level up.

What you get:

€17.76/hour - Competitive pay. Paid on time, every time

Work-life balance - just 7 days of work over 2 weeks (12 hours shifts)

Full training provided - no experience in controlled environments needed

Real career progression opportunities

Access to discounted health plans, Bike to Work scheme, training and development

Why this role stands out:

This isn't standard cleaning. You'll be working on a client site with strict cleanliness and safety standards, where:

Everything is structured (clear SOPs, no confusion)

You're properly trained and supported

You work in a controlled, high-spec environment

Your attention to detail actually matters

What you'll be doing:

Technical inspection, generate and execute cleaning validation protocols, plans and reports as required.

GMP records, data review and traceability

Validated contamination-control process execution.

Deviation, CAPA and audit support.

Equipment and material control

Technical coordination and continuous improvement

Health and Safety. Ensure PPE is worn where applicable. Report any incidents / accidents to you supervisor / manager

Keeping your assigned area compliant and organised

What we're looking for:

Relevant post-secondary technical qualification, or demonstrable controlled environment / pharmaceutical manufacturing experience appropriate to the role.

Ability to interpret SOPs, acceptance limits and technical records, and to prepare clear inspection and deviation reports

Good English (written & spoken)

Flexibility to work 12-hour day/night shifts (including weekends)

This is for you if:

You want steady income and reliable hours

You want to grow within a professional environment

You value work-life balance

Ready to upgrade your career?

Join SSE and move into a more structured, higher-paying role in a professional setting.
