Construction - CAD REVIT BIM Engineer

Application Details

In order to work in Ireland a non-EEA National, unless they are exempted, must hold a valid employment permit. Please review the [Eligibility and requirements for an employment permit](#) if you are unsure of your eligibility to apply for this vacancy.

Job Description

Attributes:

Excellent communication & organisational skills

Looking to continuously improve their skillset

Keen interest in innovation and emerging technologies

Experience in Revit model and Family Creation

Experience in Navisworks manager

Experience in BIM 360

Experience working to timelines in a project environment

Ability to work off their own initiative but also as part of a project team

The prior knowledge, skills and experience required of the CAD / REVIT / BIM Engineer are outlined as follows:

3rd level qualification in Electrical Engineering, Mechanical Engineering, Building Services Engineering or Strong trades background coupled with a BIM qualification.

A minimum of 3+ years' experience within a BIM Co-ordination function.

Mechanical or Electrical background and have a proven track record in a similar role.

Strong communication and organisational skills.

Ability to work under pressure and to short deadline

The main duties and responsibilities of the CAD / REVIT / BIM Engineer are outlined as follows:

Manage the production of multi-discipline coordinated models, drawings and schedules.

Align design development with the project BIM execution plan—which would include regular coordination and model checks and sharing of model data throughout the design team.

Liaising between Mechanical & Electrical Designers and Civil & Structural Designers

Production and maintenance of MIDP throughout the project.

Participation in drawing/design reviews and facilitation of feasibility studies.

Liaising with project teams to ascertain project needs and timelines for same.

Taking instructions from Engineers and producing drawings with limited supervision or direction

Use initiative and knowledge to support the CAD team and grow expertise in the use of CAD

software and other tools

What we offer you:

The opportunity to join an ambitious and growing organisation.

Monday to Friday working week, finishing early on Fridays.

22 days annual leave plus ten bank holidays.

A company laptop.

Access to EAP – 24/7, 365 days confidential employee counselling service, free for employees and their families.

Glanua is an industry leader providing innovative and sustainable engineering solutions to design, build, operate and maintain critical water and wastewater infrastructure across Ireland and the UK.
