Job Description

About the Role

Bidvest Noonan is seeking a Security Analyst to support the monitoring, analysis and protection of information security systems and infrastructure. The successful candidate will assist in identifying security threats, investigating incidents, assessing vulnerabilities and maintaining effective information security controls.

Key Responsibilities

- Monitor and analyse security alerts, events, logs and threat intelligence.
- Identify, investigate and respond to information security incidents.
- Conduct vulnerability assessments and support remediation activities.
- Monitor and support information security technologies, including firewalls and IDS/IPS.
- Assist with the implementation and maintenance of information security controls and procedures.
- Support security audits, risk assessments and compliance activities.
- Prepare accurate security incident, vulnerability and assessment reports.
- Escalate identified security risks and incidents in accordance with established procedures.
- Maintain appropriate security documentation and records.

Essential Requirements

- A recognised Diploma or equivalent qualification in Information Technology, Cybersecurity, Information Security, Computer Science, Network Security or a related discipline.
- Relevant professional training or certification in cybersecurity or information security is desirable.
- Relevant practical experience in security monitoring, incident response, vulnerability management, network security or information security.
- Good working knowledge of security monitoring tools, firewalls, IDS/IPS and information security controls.

- Strong analytical, investigative and problem-solving skills.

Why Join Bidvest Noonan?

This is an opportunity to join Bidvest Noonan in a professional information Security Analyst, supporting the protection, monitoring and resilience of critical technology infrastructure.

Education requirements

- Degree or Diploma in Information Technology, Cybersecurity, Information Security or a related discipline, with relevant practical experience..

Other available requirements e.g. driving licence, language criteria etc.

Fluent English, Valid work permit/visa (if applicable).

- **Sector:** other service activities

Career Level

- Experienced [Non-Managerial]
